SUMMARY

Aspiring Salesforce Developer and B.Tech Computer Science student with hands-on experience in Salesforce configuration, automation, and development. Certified Salesforce Platform Developer and Agentforce Specialist, with expertise in Flows, reports, dashboards, LWC, Apex, and SOQL. Experienced in CRM data management, troubleshooting, and building scalable solutions, including an Airline Management System. Proficient in Java, Spring Boot, REST APIs, and web technologies, with strong foundations in OOP, DBMS, and problem-solving.

RELEVANT SKILLS

Salesforce platform skills aligned with certification prep; full-stack and tooling experience from coursework and projects.

SALESFORCE

- Configuration & customization (objects, page layouts, validation rules)
- Automation using Flows, reports, and dashboards
- CRM data management, migration, and data quality
- Troubleshooting, testing, and optimization
- Lightning Web Components (LWC), Apex, and SOQL

LANGUAGES & DATA

Java · HTML · CSS · JavaScript · SQL · MongoDB

FRAMEWORKS & APIS

Maven · Spring Boot · REST APIs · Bootstrap

TOOLS & FOUNDATIONS

Git · GitHub · VS Code · IntelliJ IDEA · Eclipse

OOP · DBMS · DSA

PROJECTS & EXPERIENCE

E-Commerce Platform · Academic project — Jul 2025

- Built the backend using Spring Boot and a relational database.
- Enabled real-time ordering and admin item management.
- Contributed to the frontend using HTML, CSS, JavaScript, and Bootstrap.
- Ensured seamless communication between the UI and the backend.

Airline Management System · Salesforce project

- Designed a Salesforce app using custom objects (Flight, Flight Schedule, Pilot, Pilot Schedule).
- Implemented validation rules, formula fields, Process Builder automation, and email alerts.
- Automated the flight lifecycle with email notifications to pilots.
- Created dashboards and reports for real-time operational insights.
- Configured role hierarchy, sharing rules, and permissions.
